Recording Events on the Mobile App

In this tutorial you will learn how to use the FarmIQ mobile app to record stock and land activities
Use the mobile app to record stock and land events to keep track of what is happening on your farm in real time.
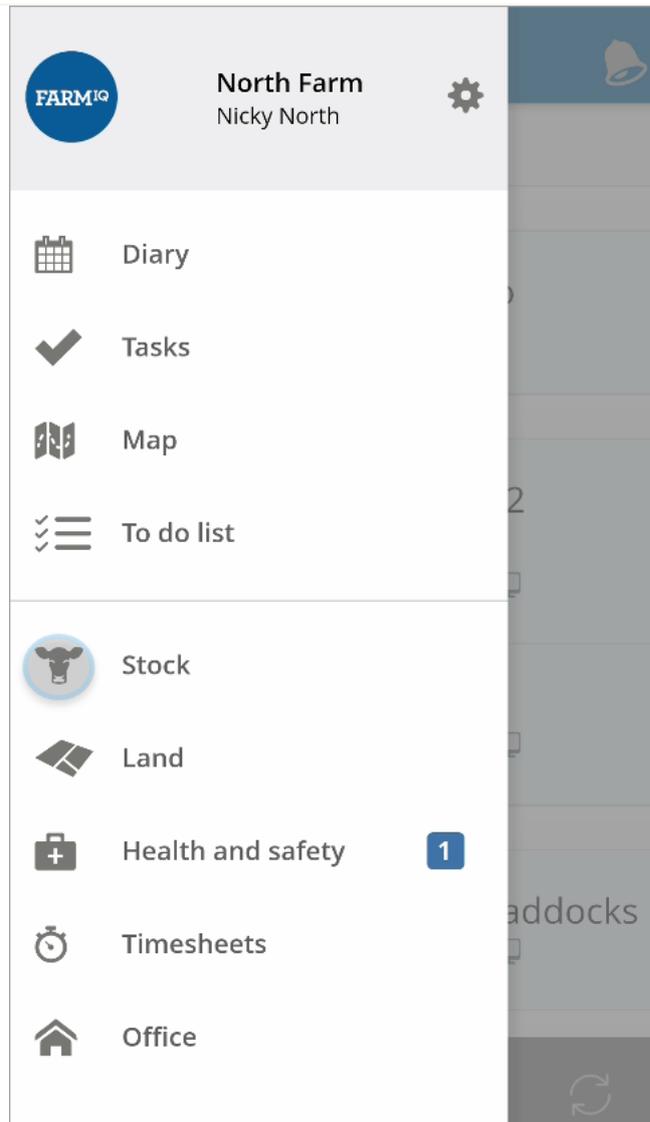

Tap **menu** then tap **Stock**.
You can record a range of stock related activities.

Stock menu

Management & weights

Move stock	Drafting	Weighing
Sell stock	Purchases	Send to graze
Deaths	Births	General event

Health,feed & others

Treatment	Feed stock
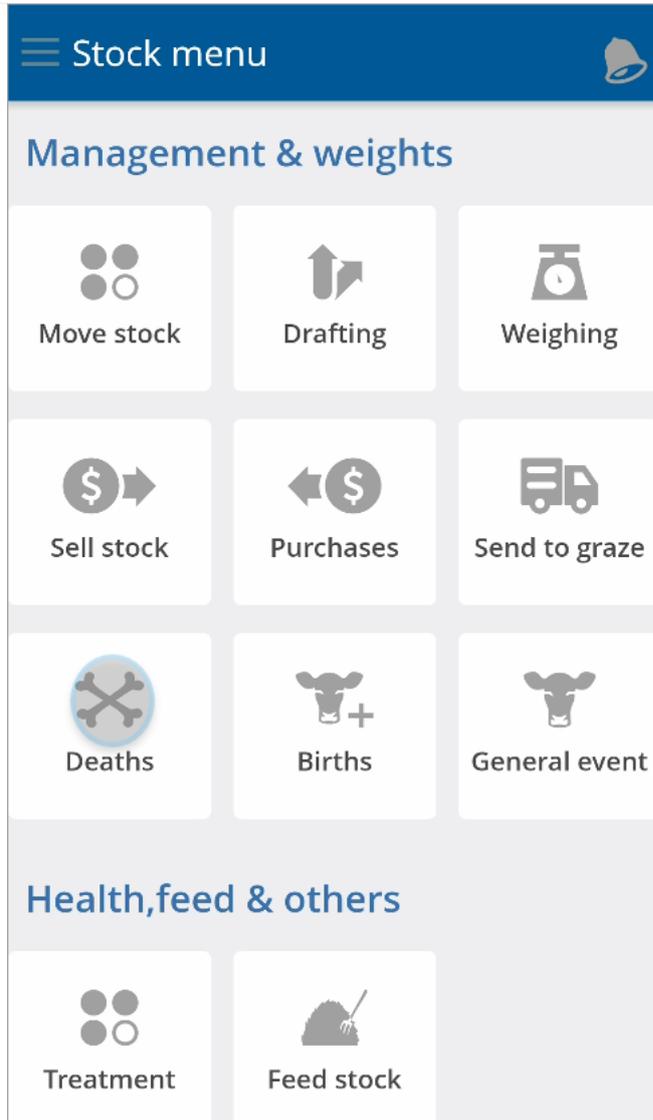

Tap the activity you want to record. For example, to record a death tap **Deaths**.
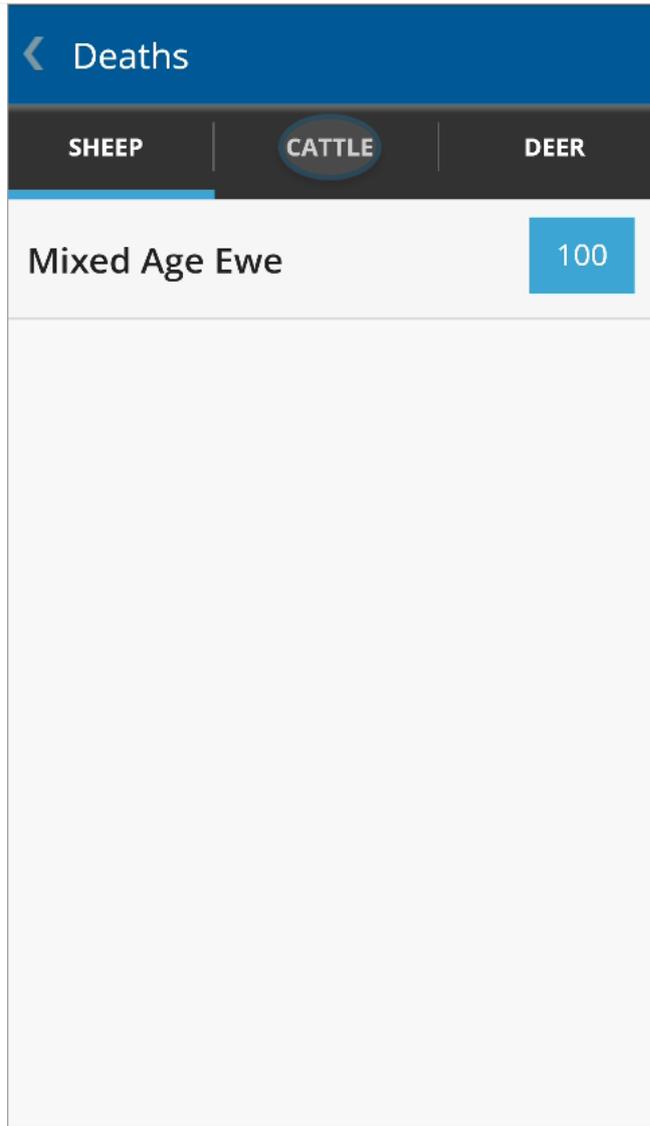

Select the animal type,

Deaths

SHEEP	CATTLE	DEER
Bull Calf		200
R2 Bull		82
Mixed age Cow		55
Mixed age Bull		88

then the mob the animal was in.

❮ Deaths

2018 Angus	200
Paddock: Bull 1	

DATE

Estimated date*	28 Sep 2018 📅

DEATH DETAILS

Animal tally*	8

Death paddock	10b ⌄

Cause of death*	Unknown ⌄

☐ Add disposal info

NOTES

Save

Enter the details of the event. Once you have entered the information tap **Save**.

⏱ Timesheets

🏠 Office
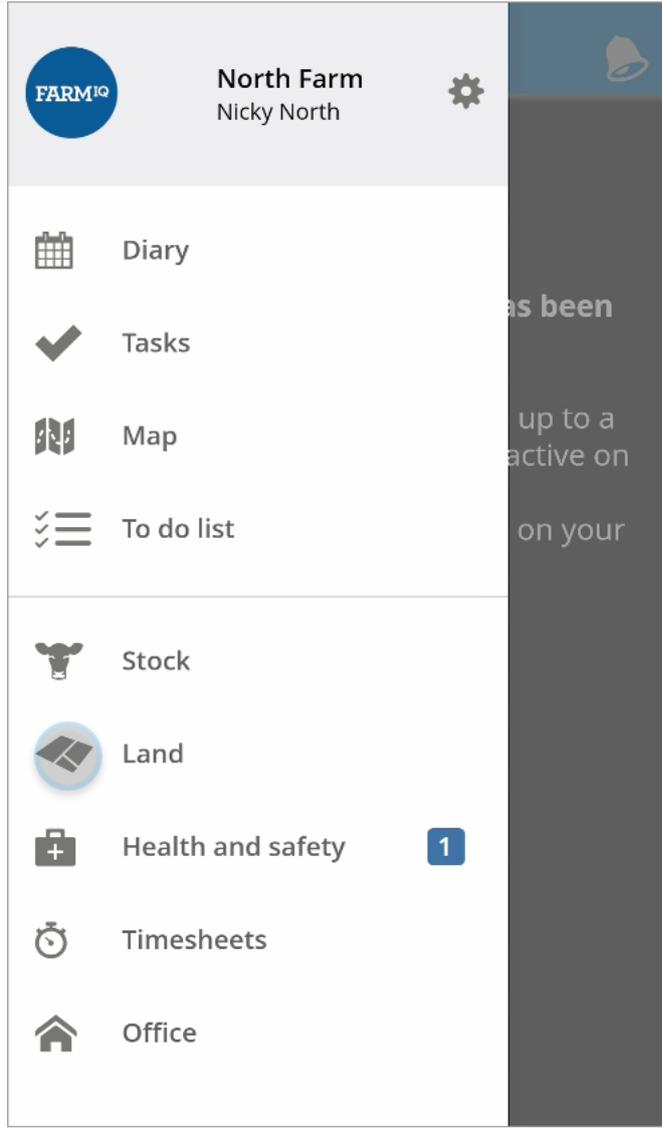

To record a land event, Open the Menu then tap Land.
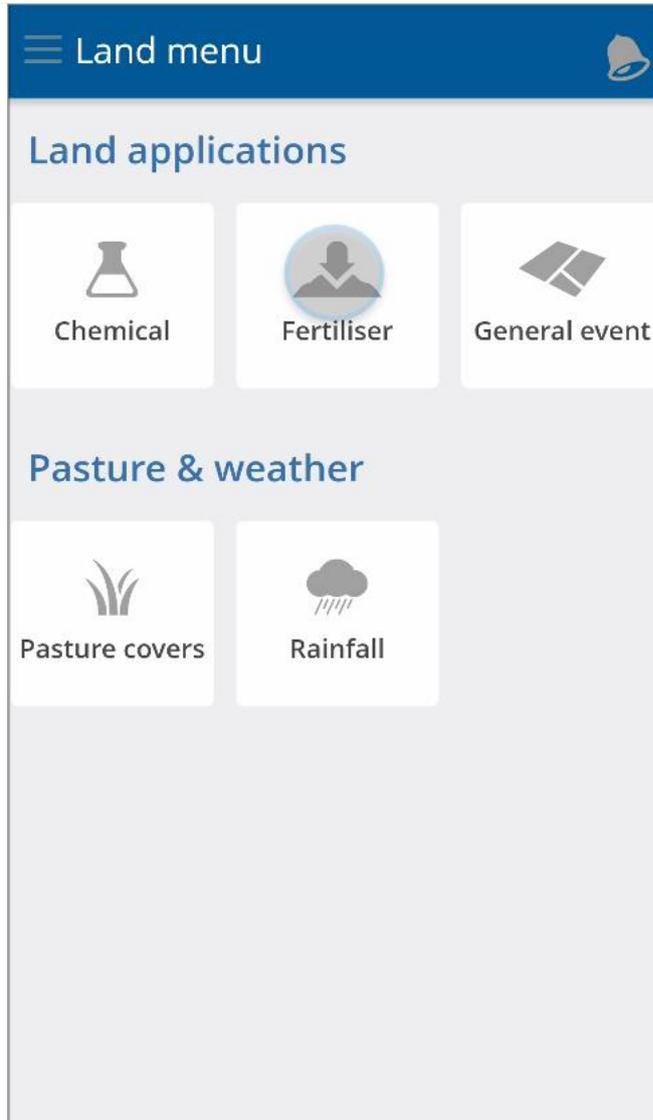

You can record Chemical, Fertiliser and other general land events
For example, to record a fertiliser application, tap Fertiliser

Fertiliser

SELECT PADDOCK AREA

Total area	❯
Effective area	❯
Cultivatable area	❯

Select if the application is being done on the total, effective or cultivable area of the paddocks.

Fertiliser

Select all | Clear all | 14.59 ha

ALL PADDOCKS

☐ 10b	0	ha
☐ 58b	0.06	ha
☐ 9b	0	ha
☐ Adams	5.21	ha
☑ Airstrip 1	7.26	ha
☑ Airstrip 2	7.33	ha

Continue

Select the paddocks involved in the activity.
Tap **Continue**.

Enter the Date and other details
Tap **Continue**.
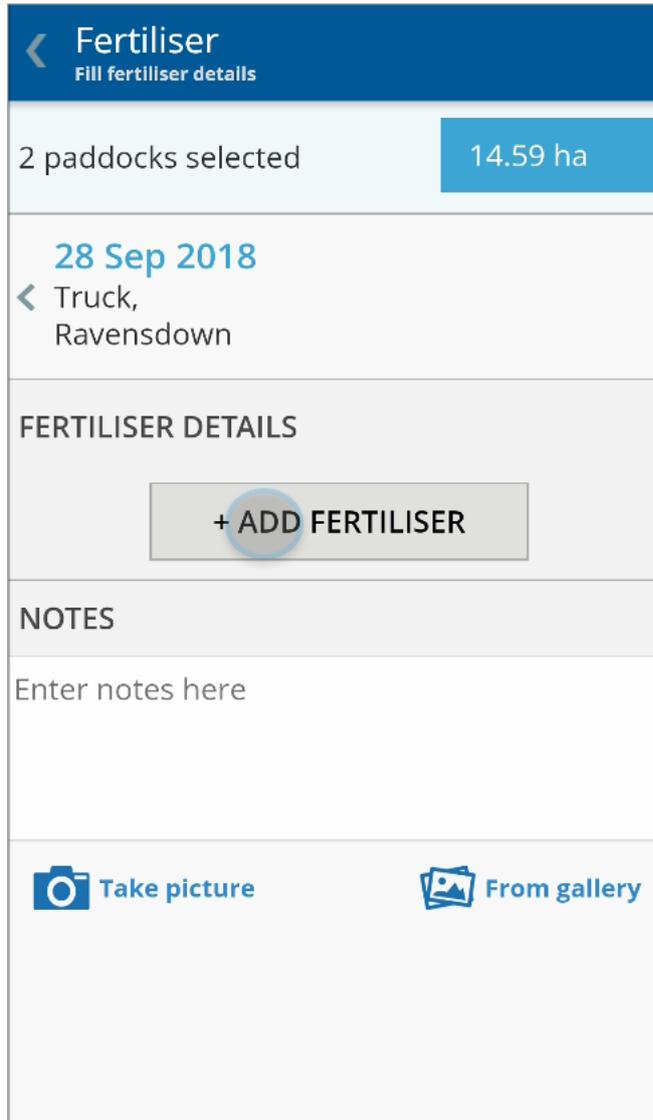

to add the specific product details, tap **Add fertilizer**...

Fertiliser
Fill fertiliser details

FERTILISER DETAILS

Select a fertiliser

Superphosphate

————

10% Potash Super

15% Potash Serpentine Super

Cancel	Set
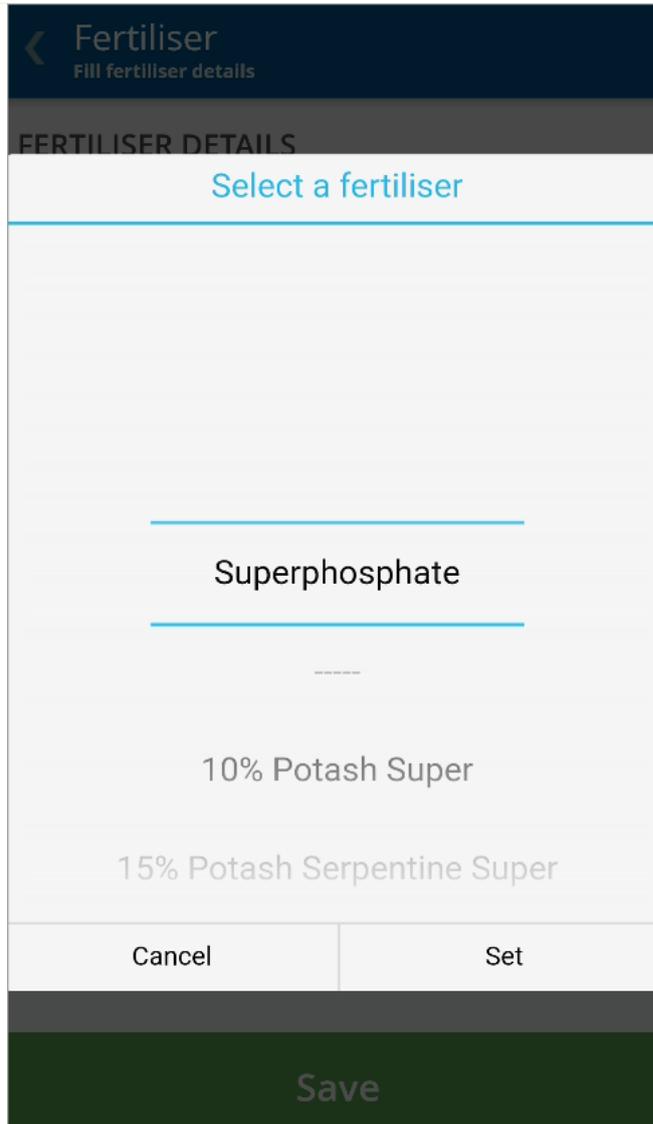

Save

...and select the product from the dropdown list.

Fertiliser
Fill fertiliser details

FERTILISER DETAILS

Fertiliser*	Superphosphate ∨

+ ADD NEW PRODUCT

Batch number	Select ∨

+ ADD NEW BATCH

Application rate*	50	kg/ha
Total*	0.73	t
Price	Price	$

Save

Enter the application rate in kg/ha and the app will calculate the total amount based on your area selected
Tap **Save**.

Check all details entered are correct. You can also add costs and notes.

Tap **Record Fertiliser**.
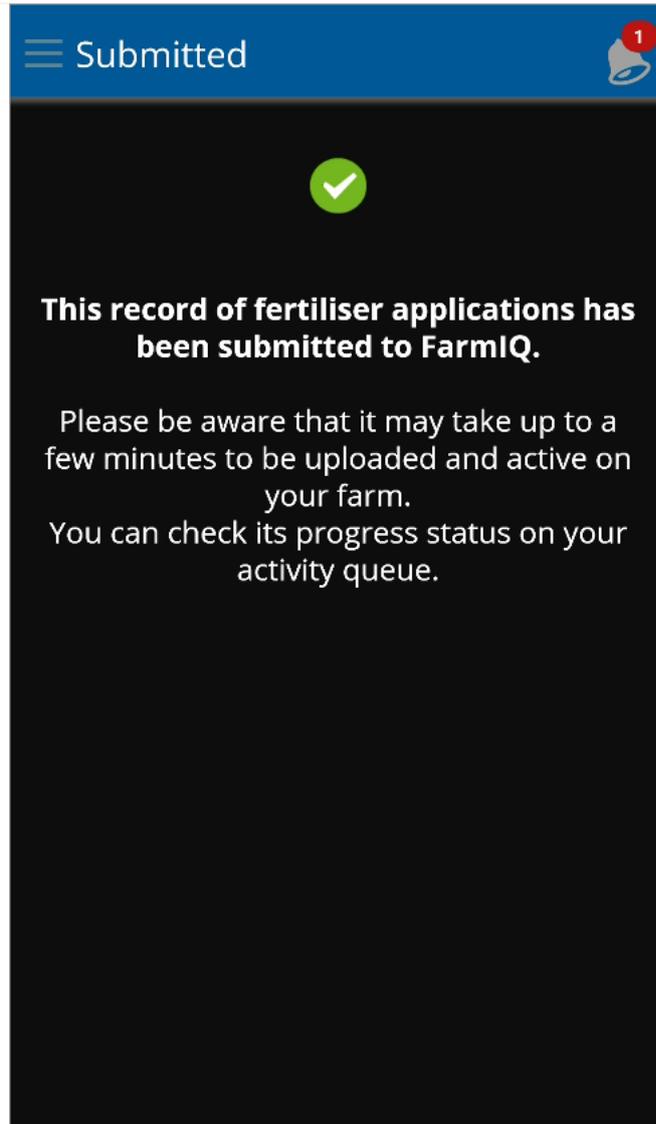

When recording events, a notification shows on the Bell until the event has been processed. Events will not process if you are out of coverage, but will sync when you come back into coverage
If this notification does not disappear, the event has not been processed and you will not see it in your Diary.
You will need to log onto a PC to resolve it.
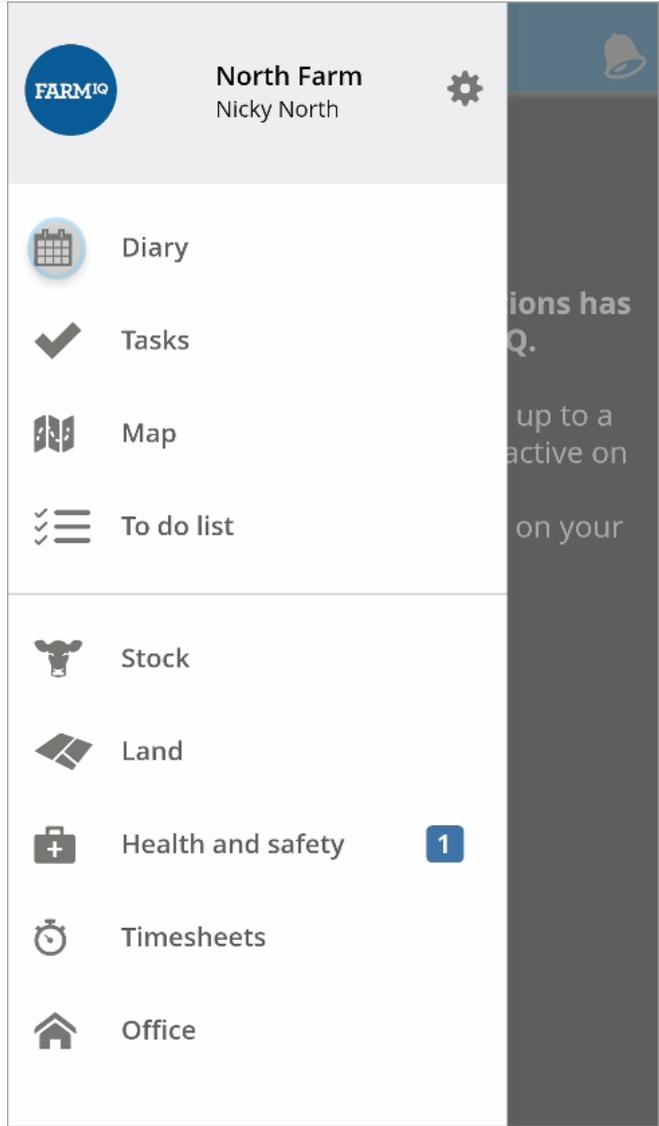

Tap menu then **Diary** to view the record of the event you have just recorded.
