

Recording Stock Events

In this video you will learn how to record general animal activities in the Everyday pack. By recording stock activities, you have a permanent record of what has happened to animals on your farm for future reference.

In the Everyday pack you can record stock movements on and off farm, health treatments and grazing events. If you want to record any other activity such as weighing, you can make a diary note using General animal activity.

To record a general animal activity, click **Stock, Management, General animal activity**.

General animal activity

Activity Date * Time of day * Animal type * [Add favourite](#)
