

Recording stock activities

In this video you'll learn about recording stock activities when you keep a stock reconciliation in FarmIQ Performance+.

When you record stock activities, you build a record of what's happened on your farm – to help your planning, and for compliance.

			500 m
MA Cows 📃	×		· · · · · · · · · · · · · · · · · · ·
Stock class	Tally		
Mixed age Cow 2020, Angus Capital	72		
Total (in paddock)	72	L BAS	
+ Activities	Move mob		
72			- 2 - 61
	10		A TA

You can start recording activities for animals you have on your map by clicking the mob icons...

... or record activities for any animals on your farm, and add new stock, from the **Stock** menu.

			Weaning		

In this video, we'll record a health treatment.

Under Health & breeding, click Health treatments.

Select the stock you treated	1			
By mob O By paddock				
Treatment date *	Time of day *	Select a mob *	Select multiple mobs	
23-2-2024	Afternoon	Select	~	
		Select		
		Bulls MA Cows		

When you record an activity for your stock, you need to enter the **Date** and **Time of day** then, select the animals – choosing from your mobs or paddocks (or, if you have them, from stock that are grazing off)...

Treatment date * 23-2-2024	Time of day • Afternoon	~	Select a mob * MA Cows	Select multiple mobs	
MA Cows					72
Treatment details	5				2 ^m
Number of treatmente	Applicator				

... then entering the tallies.

4						
1 ~	Nicky North	\$				
Treatment type *	Product name	Application •	Rate *	Hormone	Batch	Total used *
Drench ~	Abamectin P ~	Pour-on ~	30 ml		24681357 ~ 2.84L remaining	2160 ml
					 Use multiple batches Create new batch 	Total used2160mlExpected2160mlDifference0ml

Once you've selected the stock for this activity, enter the other details.

Here, we'll select the applicator, then select the treatment type and the product (or add a new one), with the application method and the rate.

For some activities, if you record the use of inventory, like batches, your FarmIQ inventory will be updated based on the amounts used.

Туре *	Details	Unit	Rate	Qty	Total *								
Product cost 🗸	Abamectin Pour On	Price per he	\$	72	\$ 0.00	Î							
Add another cost													
		Total cost											
		\$ 0.00	\$0	0.00 p/head									
Notes		Attachments											
		Erom computer	From file library										

You can also record **Costs**, and add **Notes** and **Attachments**.

Once you' re finished, click **Save**.
